CODEBOOK DISPLAY NOTES
PATH STUDY
ADULT QUESTIONNAIRE DATA
ICPSR #36498-6001

1. ICPSR customized the display of the variables in this codebook. Most variables contain a frequency table displaying value labels and unweighted counts. Some numeric variables show summary statistics (arithmetic mean, mode, median, minimum, maximum, and standard deviation) instead of a frequency table. The median and mode may not display in the summary statistics if a variable has a very large number of distinct categories or values. These numeric variables do not have value labels for valid data. The third type of variable display does not show either a frequency table or summary statistics. These variables usually fall into one of three categories:

    A. Character (String) variables: Free text responses have been omitted when there are more than 10 to 15 unique responses.

    B. Lengthy Categorical variables: Variables with more than 25 valid value labels such as variables that end in "_BRAND" and "_PRODUCT".

    C. Identification variables: Variables for which univariate statistics are not meaningful, such as CASEID and PERSONID.

    Unless a variable falls into the above categories of A or C, a missing values table will be present if the valid cases have been presented in a frequency table, display summary statistics, or have been suppressed.

2. A variable with the same PATH ID (see description in the Public-Use Files User Guide) can display differently over time as a frequency table, summary statistics, or neither of these in the codebook depending on the range of valid values or the number of valid values or the number of valid cases present for that variable for that wave.

3. Frequencies or summary statistics are not displayed for the valid cases for variables ending in "_C" that ask about "cents" for the cost of a product, or "_IN" that ask about "inches" for a person's height. These variables are paired with a preceding variable ending in "_D" (dollars) and "_FT" (feet), respectively. Summary statistics or a frequency table may be displayed for that preceding "_D" or "_FT" variable. Both variables in the

pair should be used together to accurately estimate the cost of a product or a person's height.

4. Some variables contain lengthy universal lists of values for a particular type of question or section. Examples of this are the "_BRAND" and "_PRODUCT" variables that are in each tobacco type section. Not all of the values listed in the data file apply to that type of tobacco. Frequency tables for these variables have been suppressed in the codebooks.

5. As noted above, the frequency tables of the "_BRAND" and "_PRODUCT" variables have been suppressed in the main section of the codebook. However, the top 20 most frequent responses are provided for each variable, with all other coded responses grouped into a separate category. These condensed frequency tables appear in the appendix of this codebook.

6. Variables ending in "_NN" do not have frequencies or summary statistics displayed for valid cases because the valid values correspond to different units. The "_NN" variables are paired with variables ending in "_UN" that specify the units used in the "_NN" responses. For example, see variables R06_AC1009_NN and R06_AC1009_UN.

7. The questionnaire contains numerous boxes of information that precede certain sections or individual variables. When utilizing this codebook, users should refer to the questionnaire and pay special attention to the content of these boxes. Using the questionnaire side by side with the codebook when reviewing the content will help in understanding the information in the data file. The question text of the first variable directly after one of these "boxes" contains the text from the box or a reference to that box. Boxes containing descriptive text are repeated. Boxes containing programming information for system routing variables are referenced. The text or reference following that information for the first variable also applies to the remaining variables in that questionnaire section.

8. In multiple sections of the interview, the order of a series of questions is automatically randomized for the respondent. Information about the order of randomization is included in the variables containing "_RANDOM_" in the variable name. Cases coded as "-1" indicate that the question was not applicable to the respondent and was skipped during the interview.

9. Users should consult Table 1 and Table 2 in the front of the questionnaire for specific variables that have been removed entirely from or revised in this public-use version of the data.

10. The codebook provides frequency tables for valid and missing values. The displayed percentages are rounded to one decimal place. Due to rounding, not all individual percentages in the sub-tables sum exactly to the total. Likewise, the total percentages when combined may not sum to 100%.

11. Each variable contains the following statement:

    "This variable has XXXXX valid cases out of XXXXX total cases."

    This statement describes how many valid cases for a variable were used for the calculation of percents for the frequency tables and in the calculations of summary statistics for continuous variables. Users can also quickly understand the amount of missing data for a particular variable. All percents and summary statistics are unweighted.

12. Data may be missing for a multitude of reasons. The codebook contains a statement as the last piece of information in the display of a variable that lists all user-defined missing values assigned to that variable. Most variables will contain four user-defined missing values. For these variables, the codebook will display, "*(Range of) Missing Values:* -9 , -8, -7, -1". Some variables may contain additional negative numbers assigned as missing values. The *(Range of . . .)* statement will not display for any variable where missing values are not assigned, such as CASEID, PERSONID, and weight variables.

13. In order to administer the Wave 6 Adult Instrument interviews via telephone, show cards were developed so respondents could view generic images and response options for select questions. Respondents were directed to the PATH Study participant website before the interview to access the show cards electronically. If respondents could not access the show cards electronically, a hardcopy paper version was mailed. Interviewers directed respondents to view the relevant show card using alphanumeric IDs (e.g. "Please look at show card C-6"). All telephone show cards used during telephone interview administration are included in an appendix in the Adult Annotated Instrument.

14. Users should consult Section 6.7 of the Public-Use Files User Guide for further information about Missing Values. As with numeric variables, character (string) variables contain numerical values to signify why a case is missing but these values are not labeled. All missing values still correspond to the descriptions listed in the following table.

PATH Study Missing Value Codes and Their Descriptions

Value	Definition	Applicable data types	Applicable variable types	Description
-1	Inapplicable	Numeric, Character	Interview	This value is coded to identify items that were validly skipped on a route specific to a respondent.
-5	Improbable response removed	Numeric	Interview	This value is coded to represent improbable numeric answers provided by respondents.
-6	Unassigned PERSONID	Character	Interview	This value is coded when a new person is added as a spouse or other guardian in parent interviews for Wave 2 and beyond.
-7	Refused	Numeric, Character	Interview	This value is coded when respondents answered a question as "Refused."
-8	Don't know	Numeric, Character	Interview	This value is coded when respondents answered a question as "Don't know."
-9	Missing – Not ascertained	Numeric, Character	Interview	This value is coded when data were supposed to be collected on a route specific to a respondent but the collection did not occur due to a skip error in the instrument.
-99933	Missing due to respondent not being in previous wave	Numeric, Character	Derived	This value is coded when a value in a derived variable is missing because a respondent did not participate in an interview in the previous wave.
-99999	Missing due to data not ascertained on one or more component variables	Numeric, Character	Derived	This value is coded when a value in a derived variable is missing because data were "Not ascertained" (as described above) in one or more component variables.
-99988	Missing due to a don't know response on one or more component variables	Numeric, Character	Derived	This value is coded when a value in a derived variable is missing due to a "Don't know" response in one or more component variables and none of those variables were "Not ascertained" (as described above).
-99977	Missing due to a refused response on one or more component variables	Numeric, Character	Derived	This value is coded when a value in a derived variable is missing due to a "Refused" response in one or more component variables and none of those variables were missing due to a "Don't know" response or because they were "Not ascertained" (as described above).
-99955	Missing due to an improbable response on one or more component variables	Numeric	Derived	This value is coded when a value in a derived variable is missing due to an improbable response in one or more component variables and none of those variables were missing due to "Don't know" or "Refused" responses or because they were "Not ascertained" (as described above).

Value	Definition	Applicable data types	Applicable variable types	Description
-99966	Missing due to missing data on a prior wave for one or more component variables	Numeric, Character	Derived	This value is coded when a value in a derived variable is missing because of missing data in one or more component variables from any previous wave and none of those variables were missing due to “Don’t know” or “Refused” responses, because they were “Not ascertained,” or because of an improbable response (as described above).
-99911	Missing due to an instrument skip pattern for one or more component variables	Numeric, Character	Derived	This value is coded when a value in a derived variable is missing due to items that are not applicable/validly skipped for a respondent in one or more component variables and none of those variables were missing due to the other reasons listed above.
-97777	Missing due to data removed per respondent request	Numeric, Character	Interview, Derived	This value is coded when respondents request data removal.

ICPSR 36498

Population Assessment of Tobacco and Health (PATH) Study [United States] Public-Use Files

Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.

Wave 6: Adult Questionnaire Data

CASEID: Case Identification Number

This variable has 30,516 valid cases out of 30,516 total cases.

Location: 1-5 (width: 5; decimal: 0)
Variable Type: numeric

PERSONID: Participant ID

This variable has 30,516 valid cases out of 30,516 total cases.

Location: 6-15 (width: 10; decimal: 0)
Variable Type: character

R06_ADULTTYPE: Wave 6 adult type classification

Value	Label	Unweighted Frequency	%
1	1 = Continuing adult	28852	94.5 %
2	2 = Aged-up adult	1664	5.5 %
	Total	**30,516**	**100.0%**

This variable has 30,516 valid cases out of 30,516 total cases.

	Missing Data		
-97777	-97777 = Missing due to data removed per respondent request	0	0.0 %
	Total	**0**	**0.0%**

Percentages for both tables are based on 30,516 total cases.

Location: 16-21 (width: 6; decimal: 0)
Variable Type: numeric
(Range of) Missing Values: -97777

R06_ADULT_MODE: Wave 6 Adult interview mode

Value	Label	Unweighted Frequency	%
1	1 = In-Person	9737	31.9 %
2	2 = Telephone	20779	68.1 %
	Total	**30,516**	**100.0%**

This variable has 30,516 valid cases out of 30,516 total cases.

Location: 22-22 (width: 1; decimal: 0)
Variable Type: numeric

R06R_A_AT0047: DERIVED - Recoded marital status (3 levels)

Long Description: What is your marital status?

Algorithm: IF R06_AT0047 = 1 THEN R06R_A_AT0047 = 1 ; ELSE IF R06_AT0047 IN (2,3,4) THEN R06R_A_AT0047 = 2 ; ELSE IF R06_AT0047 = 5 THEN RO6R_A_AT0047 = 3 ; ELSE R06R_A_AT0047 = .;

Value	Label	Unweighted Frequency	%
1	1 = Married	9670	31.7 %
2	2 = Widowed, divorced or separated	4522	14.8 %
3	3 = Never married	16281	53.4 %
	Total	**30,473**	**99.9%**

This variable has 30,473 valid cases out of 30,516 total cases.

	Missing Data		
-97777	-97777 = Missing due to data removed per respondent request	0	0.0 %
	-	43	0.1 %
	Total	**43**	**0.1%**

Percentages for both tables are based on 30,516 total cases.

Location: 23-28 (width: 6; decimal: 0)
Variable Type: numeric
(Range of) Missing Values: -97777 , .

R06R_A_AM0065_V2: DERIVED - Recoded number of years in US (2 levels)

Long Description: About how many years have you lived in the United States?

Algorithm: IF R06_AM0065 = -2 THEN R06R_A_AM0065_V2 = 1; ELSE if R06_AM0065 >= 0 then R06R_A_AM0065_V2 = 2; ELSE R06R_A_AM0065_V2 = .;

Value	Label	Unweighted Frequency	%
1	1 = Lived in the U.S. entire life	23736	77.8 %
2	2 = Not lived in the U.S. entire life	6666	21.8 %
	Total	**30,402**	**99.6%**

This variable has 30,402 valid cases out of 30,516 total cases.

	Missing Data		
-97777	-97777 = Missing due to data removed per respondent request	0	0.0 %
	-	114	0.4 %
	Total	**114**	**0.4%**

Percentages for both tables are based on 30,516 total cases.

Location: 29-34 (width: 6; decimal: 0)
Variable Type: numeric
(Range of) Missing Values: -97777 , .

R06_AM0066: How well you speak English

How well do you...

speak English?

ASK: Adult respondents who did not already complete a parent interview.

ASK Specification: IF R06_PARENT_COMPLETE_LD != 1.

Value	Label	Unweighted Frequency	%
1	1 = Very well	27746	90.9 %
2	2 = Well	2012	6.6 %
3	3 = Not well	504	1.7 %
4	4 = Not at all	222	0.7 %
	Total	**30,484**	**99.9%**

This variable has 30,484 valid cases out of 30,516 total cases.

	Missing Data		
-97777	-97777 = Missing due to data removed per respondent request	0	0.0 %
-9	-9 = Missing - Not ascertained	0	0.0 %
-8	-8 = Don't know	11	0.0 %
-7	-7 = Refused	21	0.1 %
-1	-1 = Inapplicable	0	0.0 %
	Total	**32**	**0.1%**

Percentages for both tables are based on 30,516 total cases.

Location: 35-40 (width: 6; decimal: 0)
Variable Type: numeric
(Range of) Missing Values: -97777 , -9 , -8 , -7 , -1

R06_AM0070: How well you read English

How well do you...

read English?

ASK: Adult respondents who did not already complete a parent interview.

ASK Specification: IF R06_PARENT_COMPLETE_LD != 1.

Value	Label	Unweighted Frequency	%
1	1 = Very well	27388	89.7 %
2	2 = Well	2274	7.5 %

Value	Label	Unweighted Frequency	%
3	3 = Not well	548	1.8 %
4	4 = Not at all	243	0.8 %
	Total	**30,453**	**99.8%**

This variable has 30,453 valid cases out of 30,516 total cases.

	Missing Data		
-97777	-97777 = Missing due to data removed per respondent request	0	0.0 %

R06_AN0025E: Level of agreement: Frequently crave electronic nicotine products

Please rate your level of agreement for each statement using the following scale: 1 = not true of

me at all to 5 = extremely true of me.

I frequently crave electronic nicotine products.

ASK: Adult respondents who are current or recent former ENP users and are established users or have used multiple device types.

ASK Specification: IF R06_EPROD_USER_STATUS = 1, 4 AND R06_EPROD_USE_LEVEL = 1, 2.

Note: This item was always the first question asked in the randomized set.

Value	Label	Unweighted Frequency	%
1	1 = Not true of me at all	2043	6.7 %
2	2 = 2 on a scale of 1 to 5	716	2.3 %
3	3 = 3 on a scale of 1 to 5	564	1.8 %
4	4 = 4 on a scale of 1 to 5	433	1.4 %
5	5 = Extremely true of me	464	1.5 %
	Total	**4,220**	**13.8%**

This variable has 4,220 valid cases out of 30,516 total cases.

	Missing Data

This variable has 9,898 valid cases out of 30,516 total cases.

	Missing Data		
-97777	-97777 = Missing due to data removed per respondent request	0	0.0 %
-9	-9 = Missing - Not ascertained	1	0.0 %
-8	-8 = Don't know	15	0.0 %
-7	-7 = Refused	10	0.0 %
-1	-1 = Inapplicable	20592	67.5 %
	Total	**20,618**	**67.6%**

Percentages for both tables are based on 30,516 total cases.

Location: 8868-8873 (width: 6; decimal: 0)
Variable Type: numeric
(Range of) Missing Values: -97777 , -9 , -8 , -7 , -1

R06_AN0055: Level of agreement: Finds self reaching for tobacco product(s) without thinking about it

[[I-1.]] Please rate your level of agreement for each statement using the following scale: 1 = not true of me at all to 5 = extremely true of me.

I find myself reaching for [ND FILL2] without thinking about it.

ASK: Adult respondents who are current or recent former non-electronic tobacco users and are established users or have used multiple non-electronic tobacco products.

ASK Specification: IF R06_TOBXEPROD_USER_STATUS = 1, 4 AND R06_TOBXEPROD_USE_LEVEL = 1,

2.

NOTES: DATA ERROR: Some respondents have missing data (-9) for this variable.

Value	Label	Unweighted Frequency	%
1	1 = Not true of me at all	4513	14.8 %
2	2 = 2 on a scale of 1 to 5	1102	3.6 %
3	3 = 3 on a scale of 1 to 5	1423	4.7 %
4	4 = 4 on a scale of 1 to 5	983	3.2 %
5	5 = Extremely true of me	1862	6.1 %
	Total	**9,883**	**32.4%**

This variable has 9,883 valid cases out of 30,516 total cases.

	Missing Data		
-97777	-97777 = Missing due to data removed per respondent request	0	0.0 %
-9	-9 = Missing - Not ascertained	1	0.0 %
-8	-8 = Don't know	25	0.1 %
-7	-7 = Refused	15	0.0 %
-1	-1 = Inapplicable	20592	67.5 %
	Total	**20,633**	**67.6%**

Percentages for both tables are based on 30,516 total cases.

Location: 8874-8879 (width: 6; decimal: 0)

R06_AN0025_RANDOM_15: AN0025 series random question 15

[ICPSR NOTE: The 15 items that follow in the questionnaire (R06_AN0025 - R06_AN0100) were randomized by the computer as to the order that they were asked.]

This item identifies the variable name of the 15th question asked in the randomized set.

[PROGRAM NOTE: Please see Box R06_AND02 for further information about the randomization of the order these variables were asked.]

Value	Label	Unweighted Frequency	%
-1	-	20593	67.5 %

Location: 9020-9029 (width: 10; decimal: 0)
Variable Type: character

R06_AN0025: Level of agreement: Frequently crave tobacco product(s)

Please rate your level of agreement for each statement using the following scale: 1 = not true of me at all to 5 = extremely true of me.

I frequently crave [ND FILL2].

ASK: Adult respondents who are current or recent former non-electronic tobacco users and are established users or have used multiple non-electronic tobacco products.

ASK Specification: IF R06_TOBXEPROD_USER_STATUS = 1, 4 AND R06_TOBXEPROD_USE_LEVEL = 1, 2.

NOTES: DATA ERROR: Some respondents have missing data (-9) for this variable.
This item was always the first question asked in the randomized set.

Value	Label	Unweighted Frequency	%
1	1 = Not true of me at all	3721	12.2 %
2	2 = 2 on a scale of 1 to 5	1477	4.8 %
3	3 = 3 on a scale of 1 to 5	1812	5.9 %
4	4 = 4 on a scale of 1 to 5	1231	4.0 %
5	5 = Extremely true of me	1645	5.4 %
	Total	**9,886**	**32.4%**

This variable has 9,886 valid cases out of 30,516 total cases.

	Missing Data		
-97777	-97777 = Missing due to data removed per respondent request	0	0.0 %
-9	-9 = Missing - Not ascertained	1	0.0 %
-8	-8 = Don't know	19	0.1 %
-7	-7 = Refused	18	0.1 %
-1	-1 = Inapplicable	20592	67.5 %
	Total	**20,630**	**67.6%**

Percentages for both tables are based on 30,516 total cases.

Location: 9030-9035 (width: 6; decimal: 0)
Variable Type: numeric
(Range of) Missing Values: -97777 , -9 , -8 , -7 , -1

R06_AN0030: Level of agreement: Urges keep getting stronger if don't/Still have urges to smoke/use tobacco product(s)

Please rate your level of agreement for each statement using the following scale: 1 = not true of me at all to 5 = extremely true of me.

[My urges keep getting stronger if I don't/I still have urges to] [ND FILL1].

ASK: Adult respondents who are current or recent former non-electronic tobacco users and are established users or have used multiple non-electronic tobacco products.

ASK Specification: IF R06_TOBXEPROD_USER_STATUS = 1, 4 AND R06_TOBXEPROD_USE_LEVEL = 1, 2.

NOTES: DATA ERROR: Some respondents have missing data (-9) for this variable.

Value	Label	Unweighted Frequency	%
1	1 = Not true of me at all	4422	14.5 %

R06_AM0040: Self-perception of place on social ladder relative to other people in the United States

[[L-25.]] Think of this ladder as representing where people stand in the United States.

At the top of the ladder (step 10) are the people who have the most money and education, and the most respected jobs.

At the bottom of the ladder (step 1) are the people who have the least money and education, and the least respected jobs or no job.
Where would you place yourself on this ladder? Pick the number for the step that shows where you think you stand at this time in your life, relative to other people in the United States.

[SHOW IMAGE OF LADDER]

R06R_A_MINTMAXNOUSE_P12M_E: DERIVED - Wave 6 Adult E-product Largest Number of Minutes Stopped Using E-products in the Past 12 Months Because of Trying to Quit

Long Description: Wave 6 adult current and recent former e-product users whose last quit attempt was not their longest in the past 12 months or recent former tobacco users who did not provide a valid response for R06_AV1009_NN E-product - Recode of longest length of time stopped using electronic nicotine products in the past 12 months because of trying to quit into minutes.

Algorithm: IF R06_AN0145E_UN = 1 AND R06_AN0145E_NN >= 0 THEN R06R_A_MINTMAXNOUSE_P12M_E = R06_AN0145E_NN; ELSE IF R06_AN0145E_UN = 2 AND R06_AN0145E_NN >= 0 THEN R06R_A_MINTMAXNOUSE_P12M_E = R06_AN0145E_NN * 60; ELSE IF R06_AN0145E_UN = 3 AND R06_AN0145E_NN >= 0 THEN R06R_A_MINTMAXNOUSE_P12M_E = R06_AN0145E_NN * 60 * 24; ELSE IF R06_AN0145E_UN = 4 AND R06_AN0145E_NN >= 0 THEN R06R_A_MINTMAXNOUSE_P12M_E = R06_AN0145E_NN * 60 * 24 * 7; ELSE IF R06_AN0145E_UN = 5 AND R06_AN0145E_NN >= 0 THEN R06R_A_MINTMAXNOUSE_P12M_E = R06_AN0145E_NN * 60 * 24 * 30.4375; ELSE R06R_A_MINTMAXNOUSE_P12M_E = .;

This variable has 338 valid cases out of 30,516 total cases.

- Mean: 237932.02
- Median: 219150.00
- Mode: 525960.00
- Minimum: 1.00
- Maximum: 525960.00
- Standard Deviation: 187251.47

	Missing Data		
-97777	-97777 = Missing due to data removed per respondent request	0	0.0 %
	-	30178	98.9 %
	Total	**30,178**	**98.9%**

Percentages for both tables are based on 30,516 total cases.

Location: 16168-16173 (width: 6; decimal: 0)
